## EDUCATION

### Bachelor of Technology

Silicon Institute of Technology

11/2020 - Present

Bhubaneswar, India

### Higher Secondary School

Tetrahedron Junior College

04/2017 - 03/2019

Cuttack

## PERSONAL PROJECTS

Portfolio Website (10/2021 - 11/2021)

- I created my personal portfolio project using ReactJS.
- [Github](#)

Breast Cancer Analysis (06/2021 - 07/2021)

- In this project logistic regression is implemented using Scikit-learn library of python. Here prediction is done using a machine learning algorithm which predicts that a patient has malignant or benign Breast Cancer Tumor considering different factors like Clump Thickness, Uniformity of Cell Size etc.
- [Github](#)

Alexa (05/2021 - 06/2021)

- It is an simple AI assistant with just python using several python libraries like pyjokes, pyaudio, pywhatkit, speechrecognition etc.
- [Github](#)

## WORK EXPERIENCE

### Student Intern

Syllogistek

09/2021 - 10/2021

Final Project

- A password protected database system of employees of an organization

## SKILLS

Python

Java

JavaScript

React

Machine Learning

Frontend Development

Numpy

Pandas

Scikitlearn

Matplotlib

Seaborn

## ACHIEVEMENTS

Hackerrank Skill Badge

2 star in Python

Hackerrank Skill Badge

2 star in Java

## ORGANIZATIONS

EddieHub (09/2021 - Present)

Member

## CERTIFICATES

Create and Manage Cloud Resources [🔗](#)

I learned the basics of google cloud platform

Python by Kaggle [🔗](#)

Basic Python for Machine Learning
